Austin, TX

Dear Mini's and Friends,

The visit from Minis and Friends provided a wonderful experience for our Residents. It has been several years since we last had miniature horses visit the facility. Many Residents and family members were excited to learn that miniatures would be coming into the home. The date was set and everyone began looking forward to the horses coming.

Around 50 Residents had the opportunity to visit and pet the horses. Residents were anxiously awaiting the arrival of the horses on Saturday morning. Once the minis entered the building, they were the stars of the show. Khaki had on the big boa of multi-colored feathers, and adorable little Skittles wore a pink feather. Residents were so happy, smiles just lit up their faces. Everyone got to love and pat on Khaki and Skittles. Many Residents enjoyed learning about the horses, their age and why Khaki didn't like for Skittles to get too far away. Skittles still snacks on momma's milk. Once they had finished visiting the Residents in the lobby, a family member made a special request for the horses to visit her mother in another part of the home. So off they went!

We loved having Khaki, Skittles, Candy, Christy, Dean, Pam and Gary come with the minis to visit us. Pet therapy is a very important part of our residents' lives and we are so thankful they were able to visit the Residents. Sometimes, joy and happiness is found through the beat of 4 little hooves.

Sincerely,

Kim Bishop
